TECHNICAL SPECIFICATION

DESCRIPTION

Experience the pinnacle of luxury and safety with our genuine sheepskins specially crafted for aviation use. These genuine sheepskins undergo a meticulous ironing and electrification process to eliminate the natural curl, resulting in a smooth, plush texture.

These superior quality sheepskins help to provide both luxury and comfort to the pilot (and co-pilot) by helping to regulate their body temperature which is particularly useful for any long haul flights. They are cooler in the summer, warmer in the winter, and offer moisture-absorption properties.

SHAPE & SIZE

Hide sizes average between 8-9 SQ FT

MOQ

Stock hides have an MOQ of 2 hides and further supplied in increments of 2 hides.
